Quarterly report on implementation of Official Memorandum dated 01.03.2021 (Reach – 5 RV Road to HSR Layout) by Bengaluru Metro Rail Corporation Limited

Name of the project	: Reach 5 Package 3 of Bangalore Metro Rail Project
Location of the project	: Between R V Road and HSR Layout via Marenahalli Road
OM issued date by the Tree Officer, BBMP	: 01.03.2021
Court Permission Date	: 25.03.2021

Details of the OM dtd.: 01.03.2021

Total number of trees removed as per OM	: 13 No. trees
Total Number of Trees Recommended for the Retention on site	: 2 No. trees
Total Number of Trees Recommended for the Translocation on site	: Nil
Number of Trees Recommended for the Felling on site	: 13 No. trees

Details of Translocation:

-Nil-

Details of compensatory Plantation

Agency entrusted for the raising and maintenance of the plantation by BMRCL	: Nursery Men Co-operative Society
Location of Compensatory plantation	: ASC North (Training area), Iblur
Procedure of agency selection	: Work don certificate and through open quotations method
Compensatory plantation to be raised as per OM (Ratio 1:10)	: 130 No. saplings
Number of Saplings planted	: 130 No. saplings
Year and Month of plantation Completed	: 2021 and Oct-Nov
Present servility rate of the plantation	: 130 No. saplings (100%)
Supervision of plantation	: General Manager (SEMUR), Environmental officer, AM/AE (SEMUR) Asst.

Environmental Officer, SEMU, Section
Environmental Engineer, SEMU.

Officers in-charge for Compensatory
plantation : ED-Civil, GM (SEMU), Environmental officer,
AM/AE (SEMU), Asst. Environmental
Engineer (SEMU) Section Environmental
Engineer (SEMU).

Supervision by BBMP : BBMP Tree Officer or Officer Deputed by Tree
Officer BBMP

A. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 130 no. saplings at ASC North (Training area), Iblur.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

A1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 130 saplings afforestation pertaining to the OM dtd. 01.03.2022.

A2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at ASC North (Training area), Iblur.

Soil works: Hoeing and other soil works has been completed in April 2023.

Saucer Bharav: Preparation of Saucer Bharav for the saplingshas been started from May 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Quarterly Report Oct to Dec 2022

8th Quarter

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter April to June 2023 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at ASC North (Training area), Iblur.

Numbering and Geo tagging: Coding of Each sapling ASC North (Training area), Iblur, plantation has been started. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 130 saplings at ASC North (Training area), Iblur was in progress.	1. Activities like weeding, Soil works, nutrient supplements have been carried out in the plantation.

Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Compensatory plantation	130	130	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Quarterly Report on implementation of Official Memorandum dated 02.03.2021 (R1A - Benaganahalli Lake Bund Area) by Bengaluru Metro Rail Corporation Limited

Name of the project	: Reach 1A Benaganahalli Lake Bund Area of Bangalore Metro Rail Project
Location of the project	: Benaganahalli Lake Bund Area
OM issued date by the Tree Officer, BBMP	: 02.03.2021
Court Permission Date	: 25.03.2021

Details of the OM dtd.: 02.03.2021

Total number of trees removed	: 91 No. Trees
Total Number of Trees Recommended for the Retention on site	: Nill
Total Number of Trees Recommended for the Translocation on site	: 52 No. Trees
Number of Trees Recommended for the Felling on site	: 39 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: TMRH Plantations
Location of Receptor site	: 1. Benniganahalli Tank bund area – 36 No. Trees 2. KR Puram Metro station (Along Lowry school compound) – 8 No. Trees 3. Lowry School area – 8 No. Trees
Total number of trees to be translocated as per OM	: 52 No. Trees
Translocation completed Month and Year	: July 2021
Total number of tree translocation completed	: 52 No. Trees
Total number of tree translocation balance	: 0 No. Trees
Total number of trees observed with survival Symptoms	: 07 No. Trees
Total number of trees not encounter with any type of survival symptoms	: 45 No. Trees

Procedure of agency selection	: Through open quotations method as per the KPTT Act 1999 of emergency section.
Methodology adopted for the tree translocation:	Root Ball Method as per the UAS, GKVK, guidelines 2020
Supervision of translocation by BMRCL	: Environmental officer (SEMU), AM/AE-SEMU Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU
Officers in-charge for tree translocation By BMRCL	: ED-Civil, GM (SEMU), Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU)
Supervision by Forest Dept.	: BBMP Tree officer or officer deputed by tree officer BBMP

Details of Compensatory Plantation:

Agency entrusted for the raising and maintenance of the plantation by BMRCL	: 1. Nursery Men Co-operative Society, Bengaluru. 2. Indus Herbs, Bengaluru
Location of Compensatory plantation	: 1. CMP (Training) Iblur, Bengaluru – 360 No. Tree. 2. CMP (Training) Neelasandra, Bengaluru – 550 No. Tree.
Procedure of agency selection	: Through open quotations method as per the KPTT Act 1999 of emergency section.
Compensatory plantation to be raised as per OM (Ratio 1:10)	: 910 No. Saplings
Number of Saplings planted	: 910 No. Saplings
Year and Month of plantation Completed	: Oct 2021
Present servility rate of the plantation	: 910 No. saplings (100%)
Supervision of Compensatory plantation by BMRCL	: Environmental officer (SEMU), AM/AE- SENU Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU
Officers in-charge for Compensatory Plantation By BMRCL AM/AE	: ED-Civil, GM (SEMU), Environmental officer, (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU)
Supervision by BBMP	: BBMP Tree officer or officer deputed by tree officer BBMP

A. TREE TRANSLOCATION**A1. Competent Agency Selected for Translocation:**

Bangalore Metro Rail Corporation Limited Engaged TMRH Plantations for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with TMRH Plantations.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From March 2021 BMRCL has translocated 52 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branch lets, flowers and new leaves were observed in the 07 translocated trees which evident trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 45 translocated trees have not encountered with any survival symptoms.

A.3 Maintenance of Transplanted trees:

A3.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been carried out in April 2023.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been carried April 2023.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. Compensatory Plantation:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 910 no. saplings at CMP (Training) Neelasandra, Bengaluru – 550 No. CMP (Training) Iblur, Bengaluru – 360 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 910 saplings afforestation pertaining to the OM dtd. 02.03.2021. But still any plant attains causality BMRCL is replanting such seedlings.

B1.1 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at CMP (Training) Neelasandra, Bengaluru – 550 No. CMP (Training) Iblur, Bengaluru – 360 No. Saplings.

Soil works:

Hoeing and other soil works has been carried out in April 2023.

Saucer Bharav:

Preparation of Saucer Bharav for the saplings has been carried out in May 2023.

Quarterly Report April to June 2023

8th Quarter

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from April 2023, still is in progress.

Survival rate:

In the quarter April to June 2023 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at CMP (Training) Neelasandra, Bengaluru – 550 No. CMP (Training) Iblur, Bengaluru – 360 No. Saplings

Numbering and Geo tagging:

Coding of Each tree sapling in the at CMP (Training) Neelasandra, Bengaluru – 550 No. CMP (Training) Iblur, Bengaluru – 360 No. Saplings. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 52 transplanted trees is in progress. 2. Maintenance of 910 trees saplings is in progress.	1. Both in transplanted and compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	52	52	Nil	Work is completed
2.	Compensatory plantation	910	910	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that

Quarterly Report April to June 2023

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From March 2021 BMRCL has translocated 53 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branch lets, flowers and new leaves were observed in the 06 translocated trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 47 translocated trees have not encountered with any survival symptoms.

A3. Maintenance of Transplanted trees:

Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been carried out in April 2023.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been carried April 2023.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 1880 no. saplings at CMP (Training) Iblur, Bengaluru – 1880 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

B1.1. Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

B1.2. Causality replacement: From Jan to March 2023, 0% causality was observed in the 1880 saplings afforestation pertaining to the OM dtd. 26.03.2021. But still any plant attains causality BMRCL is replanting such seedlings.

B1.3. Plantation activities under taken in the present quarter:

Weeding:

Removal of the weeds has been carried out from April to June 2023 for the plantations at CMP (Training) Iblur, Bengaluru – 1880 No. Saplings.

Soil works:

Hoeing and other soil works has been started from June 2023, still in progress.

Saucer Bharav:

Preparation of Saucer Bharav for the saplings has been Started in June 2023, still in progress.

Quarterly Report April to June 2023

7th Quarter

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter April to June 2023 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at CMP (Training) Iblur, Bengaluru – 1880 No. Saplings

Numbering and Geo tagging:

Coding of Each tree sapling in the at CMP (Training) Iblur, Bengaluru – 1880 No. Saplings. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 53 transplanted trees is in progress. 2. Maintenance of 1800 trees saplings is in progress.	1. Both transplanted and compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	53	53	Nil	Work is completed
2.	Compensatory plantation	1880	1880	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the April, May & June 2023 is here by submitted. It is requested that Tree

Quarterly Report April to June 2023

7th Quarter

Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Quarterly report on implementation of Official Memorandum dated 23.03.2021 (R6 UG Between South ramp - Jayanagar Fire Station to North Ramp - Nagawara) by Bengaluru Metro Rail Corporation Limited

Name of the project	: Reach 6 Underground of Bangalore Metro Rail Project
Location of the project	: Between South ramp - Jayanagar Fire Station to North Ramp - Nagawara, Bengaluru.
OM issued date by the Tree Officer, BBMP	: 23.03.2021
Court Permission Date	: 29.06.2021/29.07.2021

Details of the OM dtd.: 23.03.2021

Total number of trees removed as per OM	: 207 No. Trees
Total Number of Trees Recommended for the Retention on site	: 05 No. Trees
Total Number of Trees Recommended for the Translocation on site	: 58 No. Trees
Number of Trees Recommended for the Felling on site	: 149 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: Asian Landscapes
Location of Receptor site	: 1. Bangalore Co operative Union limited Premises KMF bengaluru = 16 No. Trees 2. National Dairy Reseach Institute , Bengaluru = 6 No. Trees 3. Parade ground MG Road ,Bengaluru = 06 No. Trees 4. Old Military Dairy Farm ,Hebbal = 30 No. Trees
Total number of trees to be translocated as per OM dtd.	: 58 No. Trees
Translocation completed Month and Year	: November 2021
Total number of tree translocation completed	: 50 No. Trees
Total number of tree translocation balance	: 08 No. Trees
Total number of trees observed with survival Symptoms	: 04 No. Trees

Total number of trees not encounter with any type of survival symptoms	: 46 No. Trees
Procedure of agency selection	: Through open quotations method as per the KPTT Act 1999 of emergency section.
Methodology adopted for the tree translocation:	Root Ball Method as per the UAS, GKVK, guidelines 2020
Supervision of translocation	:Environmental officer (SEMUE), Asst. Environmental Engineer, SEMUE, Section Environmental Engineer SEMUE, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.
Officers in-charge for tree translocation	: ED-Civil, GM (SEMUE), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMUE), Asst. Environmental Engineer (SEMUE) Section Environmental Engineer (SEMUE), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.
Supervision by Forest Dept	: BBMP Tree Officer or Officer Deputed by Tree Officer BBMP
Details of compensatory Plantation:	
Agency entrusted for the raising and maintenance of the plantation by BMRCL	: 1. Nursery Men Co-operative Society, Bengaluru. 2. Garden Villa, Bengaluru.
Location of Compensatory plantation	: 1. CMP (Training) Iblur, Bengaluru – 1700 No. Tree 2. ASC North (Training area) – 370 No. Tree
Procedure of agency selection	: Through open quotations method as per the KPTT Act 1999 of emergency section.
Compensatory plantation to be raised as per OM (Ratio 1:10)	: 2070 No. Saplings
Number of Saplings planted	: 2070 No. Saplings
Year and Month of plantation Completed	: Aug- Dec 2021
Present servility rate of the plantation	: 2070 No. saplings (100%)
Supervision of Compensatory plantation	: General Manager (SEMUE), Environmental officer, AM/AE (SEMUE) Asst.

Environmental Officer, SEMU, Section
Environmental Engineer, SEMU.

Officers in-charge for Compensatory
plantation : ED-Civil, GM (SEMU), Environmental officer,
AM/AE (SEMU), Asst. Environmental
Engineer (SEMU) Section Environmental
Engineer (SEMU).

Supervision by Forest Dept : BBMP Tree Officer or Officer Deputed by Tree
Officer BBMP

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged Asian Landscapes for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Asian Landscapes Plantations.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From June 2021 BMRCL has translocated 50 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 04 translocated trees which evident trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 46 translocated trees have not encountered with any survival symptoms.

A3. Maintenance of Transplanted trees:

A3.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started from May 2023, still in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from May 2023, still in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 2070 no. saplings at CMP (Training) Iblur, Bengaluru – 1700 No. Saplings and ASC North (Training area) – 370 No. Tree.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B2. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 1880 saplings afforestation pertaining to the OM dtd. 23.03.2021.

B3. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at CMP (Training) Iblur, Bengaluru – 1700 No. Saplings and ASC North (Training area) – 370 No. Tree.

Soil works: Hoeing and other soil works has been started from May 2023, still in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been Started in June 2023, still in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter April to June 2023 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at CMP (Training) Iblur, Bengaluru – 1700 No. Saplings and ASC North (Training area) – 370 No. Tree.

Numbering and Geo tagging: Coding of Each sapling in the at CMP (Training) Iblur, Bengaluru – 1880 No. Saplings and ASC North (Training area) – 370 No. Tree. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 50 transplanted trees is in progress. 2. Maintenance of 2070 trees saplings is in progress.	1. Both transplanted and compensatory afforestation site activities like weeding, soil works and nutrient supplements were taken up.

Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	58	50	8	Work is in progress
2.	Compensatory plantation	2070	2070	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Quarterly report on implementation of Official Memorandum dated 08.04.2021
(Kothnur Depot Entry Line) by Bengaluru Metro Rail Corporation Limited

Name of the project : Kothnur Depot Entry Line of Bangalore Metro Rail Project
Location of the project : Kothnur, Bengaluru
OM issued date by the Tree Officer, BBMP : **08.04.2021**
Court Permission Date : **29.06.2021/15.07.2021**

Details of the OM dtd.: 08.04.2021

Total number of trees removed as per OM : 33 No. Trees
Total Number of Trees Recommended for the Retention on site : 06 No. Trees
Total Number of Trees Recommended for the Translocation on site : 18 No. Trees
Number of Trees Recommended for the Felling on site : 15 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation : Indus Herbs
Location of Receptor site : Biotechnology Centre ,Dept of Horticulture ,Hulimavu opposite to Meenakshi mall ,Bannerghatta road -**18 No. Trees**
Total number of trees to be translocated as per OM dtd. : **18 No. Trees**
Translocation completed Month and Year : **March 2022**
Total number of tree translocation completed : **15 No. Trees**
Total number of tree translocation balance : **03 No. Trees**
Total number of trees observed with survival Symptoms : **02 No. Trees**
Total number of trees not encounter with any type of survival symptoms : **13 No. Trees**
Procedure of agency selection : Through open quotations method as per the KPTT Act 1999 of emergency section.

Methodology adopted for the tree translocation: Root Ball Method as per the UAS, GKVK, guidelines 2020

Supervision of translocation by BMRCL : Environmental officer (SEMUE), AM/AE-SENU Asst. Environmental Engineer, SEMUE, Section Environmental Engineer SEMUE

Officers in-charge for tree translocation By BMRCL : ED-Civil, GM (SEMUE), Environmental officer, AM/AE (SEMUE), Asst. Environmental Engineer (SEMUE) Section Environmental Engineer (SEMUE)

Supervision by Forest Dept. : Tree Officer or Officer Deputed by Tree Officer/DCF.

Supervision by DCF Urban : Tree Officer or Officer Deputed by Tree Officer/DCF

Details of compensatory Plantation:

Agency entrusted for the raising and : United ways, Bengaluru

Location of Compensatory plantation : Nadaprabhu Kempegowda Layout (Block-7-B-Sector, Block-5-H-Sector, Block-5-I-Sector) – 350 No. Saplings

Procedure of agency selection maintenance of the plantation by BMRCL : Through open quotations method as per the KPTT Act 1999 of emergency section.

Compensatory plantation to be raised as per OM (Ratio 1:10) : 330 No. Saplings

Number of Saplings planted : 330 No. Saplings

Year and Month of plantation Completed : Dec 2021

Present servility rate of the plantation : 350 No. saplings (100%)

Supervision of Compensatory plantation by BMRCL : Environmental officer (SEMUE), AM/AE-SENU Asst. Environmental Engineer, SEMUE, Section Environmental Engineer SEMUE

Officers in-charge for Compensatory plantation By BMRCL : ED-Civil, GM (SEMUE), Environmental officer, AM/AE (SEMUE), Asst. Environmental Engineer (SEMUE) Section Environmental Engineer (SEMUE)

Supervision by DCF Urban : Tree Officer or Officer Deputed by Tree Officer DCF Urban

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged Indus Herbs for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Indus Herbs Plantations.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for ‘Transitory Dormancy’ phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a ‘Distress’ reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as ‘surviving or successful’. Hence, any premature conclusions and certifications are being restrained.

From March 2021 BMRCL has translocated 15 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branch lets, flowers and new leaves were observed in the 02 translocated trees which trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 13 translocated trees have not encountered with any survival symptoms.

A3. Maintenance of Transplanted trees:

A3.1 Time period:

The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started from May 2023, still in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from May 2023, still in progress.

Watering:

Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 350 no. saplings at Nadaprabhu Kempegowda Layout (Block-7-B-Sector, Block-5-H-Sector, Block-5-I-Sector) – 350 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

B.1 Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

B1.1 Causality replacement: From April to June 2023, 0% causality was observed in the 1880 saplings afforestation pertaining to the OM dtd. 08.04.2021. But still any plant attains causality BMRCL is replanting such seedlings.

B1.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Nadaprabhu Kempegowda Layout (Block-7-B-Sector, Block-5-H-Sector, Block-5-I-Sector) – 350 No. Saplings.

Soil works: Hoeing and other soil works has been started from May 2023, still in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been Started in June 2023, still in progress.

Watering:

Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from May 2023, still is in progress.

Survival rate:

In the quarter April to June 2023 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Nadaprabhu Kempegowda Layout (Block-7-B-Sector, Block-5-H-Sector, Block-5-I-Sector) – 350 No. Saplings.

Numbering and Geo tagging:

Coding of Each tree sapling in the at Nadaprabhu Kempegowda Layout (Block-7-B-Sector, Block-5-H-Sector, Block-5-I-Sector) – 350 No. Saplings has been starts. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 15 transplanted trees is in progress. 2. Maintenance of 350 saplings is in progress.	1. Both transplanted and compensatory afforestation site activities like weeding, soil works and nutrient supplements were taken up.

C. Conclusion

Present servility rate of the plantation	: 1230 No. tree saplings (100%)
Supervision of Compensatory plantation by BMRCL	: Environmental officer (SEMUE), AM/AE- SENU Asst. Environmental Engineer, SEMUE, Section Environmental Engineer SEMUE
Officers in-charge for tree Compensatory plantation By BMRCL	: ED-Civil, GM (SEMUE), Environmental officer, AM/AE (SEMUE), Asst. Environmental Engineer (SEMUE) Section Environmental Engineer (SEMUE)
Supervision by Forest Dept.	: Tree Officer or Officer Deputed by Tree Officer, Bengaluru Urban DCF.

A. TREE TRANSLOCATION**A1. Competent Agency Selected for Translocation:**

Bangalore Metro Rail Corporation Limited Engaged Indus Herbs for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Indus Herbs.

A2. Methodology

BMRCL has adopted the UAS, GKVK, Bengaluru guidelines for the tree translocation. The details copy of guidelines are given in Annexure I.

A3. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From July 2021 BMRCL has translocated 38 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 01 translocated trees. Remaining 37 translocated trees have not encountered with any survival symptoms.

A4. Maintenance of Transplanted trees:

A4.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A4.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in June 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the tree saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy tree saplings. Hence BMRCL had raised the plantation of 1230 no. tree saplings at NPKL (Block-2, 1 and MAR) - 1795 No. and Old Military dairy farm Hebbal, Bengaluru – 520 Saplings, Hi-Tec Defance and Aero space park Phase-1, (KIADB), Huvinayakanahalli, Bengaluru – 1335 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 1230 saplings afforestation pertaining to the OM dtd. 08.09.2021. But still any plant attains causality BMRCL is replanting such seedlings.

B3. Plantation activities under taken in the present quarter:**Weeding:**

Removal of the weeds has been carried out from April to June 2023 for the plantations at NPKL (Block-2, 1 and MAR) - 1795 No. and Old Military dairy farm Hebbal, Bengaluru – 520

Saplings, Hi-Tec Defance and Aero space park Phase-1, (KIADB), Huvinayakanahalli, Bengaluru – 1335 No. Saplings.

Soil works: Hoeing and other soil works has been started May 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the tree saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants:

50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from May 2023, still is in progress.

Survival rate:

In the quarter April to June 2023, 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at NPKL (Block-2, 1 and MAR) - 1795 No. and Old Military dairy farm Hebbal, Bengaluru – 520 Saplings, Hi-Tec Defance and Aero space park Phase-1, (KIADB), Huvinayakanahalli, Bengaluru – 1335 No. Saplings.

Numbering and Geo tagging:

Coding and Geo tagging of Each tree sapling in the Nadaprabhu Kempegowda Layout (Block-2, Block 1 MAR) – 1795 No. Tree, Old military dairy farm Hebbal, Bengaluru – 520 No. Trees and Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 1335 No. Trees saplings plantation has been completed on Sept 2022.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 39 transplanted trees is in progress. 2. Maintenance of 3650 trees saplings is in progress.	1. Both transplanted and compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	39	39	0	Work is in progress
2.	Compensatory plantation	3150	3650	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

**Quarterly report on implementation of Official Memorandum dated 26.08.2021
(Kothnuru Depot) by Bengaluru Metro Rail Corporation Limited**

Name of the project	: Kothnuru Depot of Bangalore Metro Rail Project Construction
Location of the project	: Kothnuru, Bengaluru
OM issued date by the Tree Officer, Urban	: 26.08.2021
Court Permission Date	: 20.09.2021

Details of the OM dtd. 26.08.2021:

Total number of trees removed as per OM	: 96 No. Trees
Total Number of Trees Recommended for the Retention on site	: Nil
Total Number of Trees Recommended for the Translocation on site	: 27 No. Trees
Number of Trees Recommended for the Felling on site	: 69 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: Indus Herbs
Location of Receptor site	:Biotechnology Centre ,Dept of Horticulture ,Hulimavu opposite to Meenakshi mall ,Bannerghatta road - 27 No. Trees
Total number of trees to be translocated as per OM dtd.	: 27 No. Trees
Translocation completed Month and Year	: July 2022
Total number of tree translocation completed	: 22 No. Trees
Total number of tree translocation balance	: 5 No. Trees
Total number of trees observed with survival Symptoms	: Nil
Total number of trees not encounter with any type of survival symptoms	: 22 No. Trees
Procedure of agency selection	: Competitive bidding as per the KTTP ACT 1999

Methodology adopted for the tree translocation: Root Ball Method as per the UAS, GKVK, guidelines 2020

Supervision of translocation : Environmental officer (SEMUE), Asst. Environmental Engineer, SEMUE, Section Environmental Engineer SEMUE, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.

Officers in-charge for tree translocation : ED-Civil, GM (SEMUE), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMUE), Asst. Environmental Engineer (SEMUE) Section Environmental Engineer (SEMUE), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.

Supervision by Forest Dept : Urban Tree Officer or Officer Deputed by Tree Officer Urban.

Details of compensatory Plantation:

Agency entrusted for the raising and maintenance of the plantation by BMRCL : 1. United Ways, Bengaluru.
2. Sevalal Siddeshwara

Location of Compensatory plantation and number of saplings. : 1. Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – **710 No. Tree.**
2. Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – **250 No. Trees**

Procedure of agency selection : Through open quotations method as per the KPTT Act 1999 of emergency section

Compensatory plantation to be raised as per OM (Ratio 1:10) : 960 No. Saplings

Number of saplings planted : 960 No. Saplings

Year and Month of plantation Completed : 2021-2022 and Oct-Feb

Present servility rate of the plantation : 960 No. saplings (100%)

Supervision of Compensatory plantation : General Manager (SEMUE), Environmental officer, AM/AE (SEMUE) Asst. Environmental Officer, SEMUE, Section Environmental Engineer, SEMUE.

Officers in-charge for Compensatory plantation : ED-Civil, GM (SEMUE), Environmental officer, AM/AE (SEMUE), Asst. Environmental

Engineer (SEMU) Section Environmental
Engineer (SEMU).

Supervision by Forest Dept

: Urban Tree Officer or Officer Deputed by Tree
Officer Urban.

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged Indus Herbs for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Indus Herbs

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From Sept 2021 BMRCL has translocated 22 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were not observed in the translocated trees which evident that trees are not responding to the translocation shock.

A4. Maintenance of Transplanted trees:

A4.1 Time period:

The plantation has maintained for a period of three years form the date of completion of transplantation.

A4.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in June 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from May 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 960 no. saplings at Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – 710 No. Trees, Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – 250 No. Trees.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 7890 saplings afforestation pertaining to the OM dtd. 26.08.2021.

B2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – 710 No. Trees, Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – 250 No. Trees.

Soil works: Hoeing and other soil works has been started Nov 2022, still work is in progress.

Quarterly Report April to June 2023

7th Quarter

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter Jan to March 2023, 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – 710 No. Trees, Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – 250 No. Trees.

Numbering and Geo tagging: Coding of Each sapling in the Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – 710 No. Trees, Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – 250 No. saplings plantation has been started. Geo tagging of each sapling has been completed on Sept 2022.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. 22 No. trees were translocated. 2. Planting of 960 saplings at Nadaprabhu Kempegowda Layout (Block 6 I E H Sector) – 710 No. Trees, Jayaprakash Narayan youth training centre (Sports Campus), Vidyanagar – 250 No. Trees has completed and maintenance work was started.	1. Maintenance of 22 transplanted trees is in progress. 2. Maintenance of 7890 saplings is in progress.

Conclusion

Details of compensatory Plantation

Agency entrusted for the raising and maintenance of the plantation by BMRCL : 1. Nursery Men Co-operative Society
2. Ramakrishna Contractor, Bengaluru.
3. United ways, Bengaluru
4. Garden villa
5. Indus Herbs
Location of Compensatory plantation : 1. Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D)
2. ASC North (Training area and Staff Quarters), Iblur.
3. Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.

Procedure of agency selection	: Work done certificate and through open quotations method
Compensatory plantation to be raised as per OM (Ratio 1:10)	: 6040 No. saplings
Number of Saplings planted	: 6040 No. saplings
Year and Month of plantation Completed	: 2021-2022 and Oct-Feb
Present servility rate of the plantation	: 6040 No. saplings (100%)
Supervision of Compensatory plantation	: Environmental officer (SEMUR), Asst. Environmental Engineer, SEMUR, Section Environmental Engineer SEMUR, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.
Officers in-charge for Compensatory plantation	: ED-Civil, GM (SEMUR), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMUR), Asst. Environmental Engineer (SEMUR) Section Environmental Engineer (SEMUR), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.
Supervision by Forest Dept	: Urban Tree Officer or Officer Deputed by Tree Officer Urban.

A. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 6040 no. saplings at Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D), ASC North (Training area and Staff Quarters), Iblur, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

A1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 6040 saplings afforestation pertaining to the OM dtd. 07.05.2021.

A2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D), ASC North (Training area and Staff Quarters), Iblur, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.

Soil works: Hoeing and other soil works has been started from May 2023, still in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate:

In the quarter April to June 2023 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D), ASC North (Training area and Staff Quarters), Iblur, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.

Numbering and Geo tagging: Coding of Each sapling Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D), ASC North (Training area and Staff Quarters), Iblur, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru has been started. Geo tagging of each sapling has been completed on Dec 2021.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 6040 saplings at Nadaprabhu Kempegowda Layout (Block-5-L-Sector, Block-5-I-Sector, Block-6-B-Sector, Block 7 I sector, Block 7 A, C, E, D), ASC North (Training area and Staff Quarters), Iblur, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru was in progress.	1. Compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
2.	Compensatory plantation	6040	6040	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Quarterly report on implementation of Official Memorandum dated 08.09.2021 (UM Kaval) by Bengaluru Metro Rail Corporation Limited

Name of the project	: Anjanapura Depot of Bangalore Metro Rail Project Construction
Location of the project	: U M Kaval, Bengaluru
OM issued date by the Tree Officer, Urban	: 08.09.2021
Court Permission Date	: 20.09.2021

Details of the OM dtd. 08.09.2021:

Total number of trees removed as per OM	: 123 No. Trees
Total Number of Trees Recommended for the Retention on site	: 07 No. Trees
Total Number of Trees Recommended for the Translocation on site	: 36 No. Trees
Number of Trees Recommended for the Felling on site	: 87 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: Indus Herbs
Location of Receptor site	: Devikarani estate (Kanakapura Road) 36 No. Trees
Total number of trees to be translocated as per OM dtd.	: 36 No. Trees
Translocation completed Month and Year	: January 2022
Total number of tree translocation completed	: 36 No. Trees
Total number of tree translocation balance	: Nil
Total number of trees observed with survival Symptoms	: 04 No. Trees
Total number of trees not encounter with any type of survival symptoms	: 32 No. Trees
Procedure of agency selection	: Competitive bidding as per the KTTP ACT 1999

Methodology adopted for the tree translocation: Root Ball Method as per the UAS, GKVK, guidelines 2020

Supervision of translocation : Environmental officer (SEMU), Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.

Officers in-charge for tree translocation : ED-Civil, GM (SEMU), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.

Supervision by Forest Dept : Urban Tree Officer or Officer Deputed by Tree Officer.

Details of compensatory Plantation:

Agency entrusted for the raising and maintenance of the plantation by BMRCL : 1. Savalal sidashwara

Location of Compensatory plantation and number of saplings. : Jayaprakash Narayan youth training center (High school Campus), Vidyanagar – **1230 No. Tree.**

Procedure of agency selection : Through open quotations method as per the KPTT Act 1999 of emergency section

Compensatory plantation to be raised as per OM (Ratio 1:10) : 1230 No. Saplings

Number of Saplings planted : 1230 No. Saplings

Year and Month of plantation Completed : 2021-2022 and Oct-Feb

Present servility rate of the plantation : 1230 No. saplings (100%)

Supervision of Compensatory plantation : General Manager (SEMU), Environmental officer, AM/AE (SEMU) Asst. Environmental Officer, SEMU, Section Environmental Engineer, SEMU.

Officers in-charge for Compensatory plantation : ED-Civil, GM (SEMU), Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU).

Supervision by Forest Dept

: Urban Tree Officer or Officer Deputed by Tree Officer Urban.

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged Indus Herbs for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Indus Herbs.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From Dec 2021 BMRCL has translocated 36 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 04 translocated trees which evident that trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 34 No. translocated trees have not encountered with any survival symptoms.

A3. Maintenance of Transplanted trees:

A3.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in June 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 1230 no. saplings at Jayaprakash Narayan youth training center (High school Campus), Vidyanagar – 1230 no. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 1230 saplings afforestation pertaining to the OM dtd. 08.09.2021.

B2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Jayaprakash Narayan youth training center (High school Campus), Vidyanagar – 1230 no. Saplings.

Soil works: Hoeing and other soil works has been started May 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter April to June 2023, 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Jayaprakash Narayan youth training center (High school Campus), Vidyanagar – 1230 no. Saplings.

Numbering and Geo tagging: Coding of Each sapling in the Jayaprakash Narayan youth training center (High school Campus), Vidyanagar – 1230 no. Saplings plantation has been started. Geo tagging of each sapling has been completed on Dec 2022.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 36 transplanted trees is in progress. 2. Maintenance of 1230 trees saplings is in progress.	1. Both transplanted and compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged TMRH Plantations for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with TMRH Plantations.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From Dec 2021 BMRCL has translocated 08 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 06 translocated trees which evident that trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 02 No. translocated trees have not encountered with any survival symptoms.

A3. Maintenance of Transplanted trees:

A3.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in June 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 320 no. saplings at Jayaprakash Narayan youth training center (Sports Campus and High school Campus), Vidyanagar – 320 no. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 1230 saplings afforestation pertaining to the OM dtd. 26.08.2021.

B3. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Jayaprakash Narayan youth training center (Sports Campus and High school Campus), Vidyanagar – 320 no. Saplings.

Soil works: Hoeing and other soil works has been started May 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from June 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants: 50g of DAP and approximately 2 kg of FYM has been given to each sapling at the root zone from May 2023, still is in progress.

Survival rate: In the quarter April to June 2023, 100 % survival rate has been observed, the sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Jayaprakash Narayan youth training center (Sports Campus and High school Campus), Vidyanagar – 320 no. Saplings.

Numbering and Geo tagging: Coding of Each sapling in the Jayaprakash Narayan youth training center (Sports Campus and High school Campus), Vidyanagar – 320 no. Saplings. plantation has been started. Geo tagging of each sapling has been completed on June 2023.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 05 transplanted trees is in progress. 2. Maintenance of 320 trees saplings is in progress.	1. Both transplanted and compensatory afforestation sites activities like weeding, soil works and nutrient supplements were taken up.

Conclusion

A. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 80 no. saplings at Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 80 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

A1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement: From April to June 2023, 0% causality was observed in the 80 saplings afforestation pertaining to the OM dtd. 07.03.2022.

A2. Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 80 No. Saplings.

Supervision by Forest Dept. : BBMP Tree officer or officer deputed by tree officer BBMP

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation:

Bangalore Metro Rail Corporation Limited Engaged Blue Grass Landscaping LTD Under AFCONS Pvt. Ltd for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Blue Grass Landscaping LTD Under AFCONS Pvt. Ltd.

A3. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From April 2022 BMRCL has translocated 201 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 171 translocated trees which evident trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 30 no translocated trees have not encountered with any survival symptoms hence they were kept in the observation.

A4. Maintenance of Transplanted trees:

A4.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A4.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in April 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from April 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

B. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 7890 no. saplings at Nadaprabhu Kempegowda Layout (Block 1 MAR, Block 4- sector G&D) – 3400 No. Trees Saplings, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 4490 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

B1. Maintenance of the plantation

Time period: The plantation has maintained for a period of three years form the date of completion of rising of plantation.

Causality replacement:

From From April to June 2023, 0% causality was observed in the 7890 saplings afforestation pertaining to the OM dtd. 26.11.2021. But still any plant attains causality BMRCL is replanting such seedlings.

B2. Plantation activities under taken in the present quarter:**Weeding:**

Removal of the weeds has been carried out from April to June 2023 for the plantations at Nadaprabhu Kempegowda Layout (Block 1 MAR, Block 4- sector G&D) – 3400 No. Trees Saplings, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 4490 No. Saplings.

Soil works:

Hoeing and other soil works has been started April 2023.still work is in progress.

Saucer Bharav:

Preparation of Saucer Bharav for the saplings has been started from May 2023, still is in progress.

Watering:

Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants:

50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from April 2023, still is in progress.

Survival rate:

In the quarter April to June 2023, 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation Nadaprabhu Kempegowda Layout (Block 1 MAR, Block 4- sector G&D) – 3400 No. Saplings, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 4490 No. saplings.

Numbering and Geo tagging:

Coding of Each tree sapling in the Nadaprabhu Kempegowda Layout (Block 1 MAR, Block 4-sector G&D) – 3400 No. Trees Saplings, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 4490 No. plantation has been started. Geo tagging of each sapling has been completed on Sep 2022.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. 201 No. trees were translocated till June 2023.	1. Maintenance of 201 transplanted trees is in progress.
2. Planting of 7890 saplings at Nadaprabhu Kempegowda Layout (Block 1 MAR, Block 4- sector G&D) – 3400 No. Trees Saplings, Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 4490 No. has completed.	2. Maintenance of 7890 saplings is in progress.

C. Conclusion

HEBAZ MILITARY FARM - ECOGENE

**Quarterly report on implementation of Official Memorandum dated 10.12.2021
(Kodibeesehalli to K R Puram Package 2 (ORR)) by Bengaluru Metro Rail
Corporation Limited**

Name of the project : 2A Package 2 (ORR) of Bangalore Metro Rail Project Construction

Location of the project : Between Kodibeesehalli to K R Puram

OM issued date by the Tree Officer, BBMP : **10.12.2021**

Court Permission Date : **09.02.2022**

Details of the OM dtd. 26.11.2021:

Total number of trees removed : 1026 No. Trees

Total Number of Trees Recommended for the Retention on site : Nil

Total Number of Trees Recommended for the Translocation on site : 484 No. Trees

Number of Trees Recommended for the Felling on site : 542 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation : Blue Grass Landscapers Under SNC Pvt Ltd

Location of Receptor site : 1. Bagamane Tech park=138/138
2. Bhoganhalli lake area =38/47
3. Thubarahalli lake area =132/140
4. Nallurahalli lake area =158/159

Total number of trees to be translocated as per OM dtd. : **484 No. Trees**

Translocation completed Month and Year : **Sept 2022**

Total number of tree translocation completed : **471 No. Trees**

Total number of tree translocation balance : **13 No. Trees**

Total number of trees observed with survival Symptoms : **386 No. Trees**

Total number of trees not encounter with any type of survival symptoms	: 85 No. Trees
Procedure of agency selection	: Competitive bidding as per the KTTTP ACT 1999
Methodology adopted for the tree translocation:	Root Ball Method as per the UAS, GKVK, guidelines 2020
Supervision of translocation by BMRCL	:Environmental officer (SEMUR), Asst. Environmental Engineer, SEMUR, Section Environmental Engineer SEMUR, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.
Officers in-charge for tree translocation By BMRCL	: ED-Civil, GM (SEMUR), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMUR), Asst. Environmental Engineer (SEMUR) Section Environmental Engineer (SEMUR), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.
Supervision by Forest Dept.	: BBMP Tree Officer or Officer Deputed by Tree Officer BBMP

Details of compensatory Plantation:

BMRCL has issued notification inviting tenders for raising and maintenance of saplings for 3 years on 20.09.2022. Notice to proceed issued to competent agency on 20.02.2023. Plantation work along with Geo-tagging is progress.

A. TREE TRANSLOCATION

A1. Competent Agency Selected for Translocation: Bangalore Metro Rail Corporation Limited Engaged Blue Grass Landscapers Under SNC Pvt Ltd for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Blue Grass Landscapers Under SNC Pvt Ltd

A2. Survival Rate of transplanted trees as per the official memorandum: The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting.

Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one year (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From Feb 2022 BMRCL has translocated 471 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms like leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 386 translocated trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 85 no. translocated trees have not encountered with any survival symptoms hence they were kept in the observation.

A4. Maintenance of Transplanted trees:

A4.1 Time period: The plantation has maintained for a period of three years from the date of completion of transplantation.

A4.2 Plantation activities under taken in the present quarter:**Weeding:**

Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in April 2023, still work is in progress.

Saucer Bharav:

Preparation of Saucer Bharav for the saplings has been started from April 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. 471 No. trees were translocated from till June 2023.	1. Maintenance of 471 transplanted trees is in progress. 2. Compensatory afforestation NTP has been issued on 20.02.2023 and plantation raising work is in progress.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	484	471	13	Transplantation of 18 trees is in progress
2.	Compensatory plantation	1026	0	1026	Compensatory Plantation raising work is in progress.

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Nallurahalli Translocated Trees

Nallurahalli Translocated Trees

**Quarterly report on implementation of Official Memorandum dated 10.06.2022
(Central Silk Board to Kodibeesenahalli 2A Package 1) by Bengaluru Metro Rail
Corporation Limited**

Name of the project	: 2A Package 1 (ORR) of Bangalore Metro Rail Project Construction
Location of the project	: Between Central Silk Board to Kodibeesenahalli
OM issued date by the Tree Officer, BBMP	: 10.06.2022
Court Permission Date	: 12.07.2022

Details of the OM dtd. 26.11.2021:

Total number of trees removed as per OM	: 14 No. Trees
Total Number of Trees Recommended for the Retention on site	: Nil
Total Number of Trees Recommended for the Translocation on site	: Nil
Number of Trees Recommended for the Felling on site	: 14 No. Trees

Details of compensatory Plantation:

Agency entrusted for the raising and maintenance of the plantation by BMRCL	: EcoGene Concept
Location of Compensatory plantation and No. of Saplings	: Hi-Tec Defance and Aero space park Phase- 1 (KIADB), Huvinayakanahalli, Bengaluru – 140 No. Saplings
Procedure of agency selection	: Work don certificate and through open quotations method
Compensatory plantation to be raised as per OM (Ratio 1:10)	: 140 No. Saplings
Number of Saplings planted	: 140 No. Saplings
Year and Month of plantation Completed	: Feb 2022
Present servility rate of the plantation	: 140 No. Saplings

Supervision of translocation by BMRCL	: Environmental officer (SEMU), AM/AE- SENU Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU
Officers in-charge for tree translocation By BMRCL	: ED-Civil, GM (SEMU), Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU)
Supervision by Forest Dept.	: BBMP Tree officer or officer deputed by tree Officer BBMP

A. COMPENSATORY PLANTATION:

As per the directions of Hon'ble High court of Karnataka and the official memorandum issued by the tree officer BBMP, BMRCL had taken of Compensatory plantation in the ratio of 1:10 i.e., for removal of each tree standing in the project area by means of translocation and felling, BMRCL has to plant 10 healthy saplings. Hence BMRCL had raised the plantation of 140 No. Saplings at Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 140 No. Saplings.

BMRCL has to rise the compensatory plantation of 65,930 No. saplings as per the 21 official memorandums issued by the Tree Officer from March 2021 to January 2023. BMRCL had completed the raising 50,920 saplings.

A2. Maintenance of the plantation

A2.1 Time period: The plantation has maintained for a period of three years from the date of completion of rising of plantation.

A2.2 Causality replacement:

From Jan to March 2023, 0% causality was observed in the 140 saplings afforestation pertaining to the OM dtd. 10.06.2022. But still any plant attains causality BMRCL is replanting such seedlings.

A2.3 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 for the plantations at Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru – 140 No. Saplings.

Soil works: Hoeing and other soil works has been completed in April 2023.

Quarterly Report April to June 2023

4th Quarter

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from May 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Application of Fertiliser to plants:

50g of DAP and approximately 2 kg of FYM has been given to each tree sapling at the root zone from Feb 2023, still is in progress.

Survival rate:

In the quarter Jan to March 2023 100 % survival rate has been observed, the tree Sapling which have attained to the causality due to adverse weather conditions like heavy rains, water logging etc., will be replaced to maintain 100 % Survival rate of the plantation at Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.

Numbering and Geo tagging:

Coding of Each tree sapling Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru, plantation has been started. Geo tagging of each sapling has been completed on March 2022.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 140 saplings at Hi-Tec Defence and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru.	1. Activities like weeding, Soil works, nutrient supplements have been carried out in the plantation.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Compensatory plantation	140	140	Nil	Work is completed

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban

Quarterly Report April to June 2023

4th Quarter

Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

Divya S Hosur

**General Manager,
SEMU-BMRCL**

**Quarterly report on implementation of Official Memorandum dated 09.12.2021
(Central Silk Board to Kodibeesenahalli 2A) by Bengaluru Metro Rail Corporation
Limited**

Name of the project	: 2A Package 1 & 2 (ORR) of Bangalore Metro Rail Project Construction
Location of the project	: Between Central Silk Board to Kodibeesenahalli
OM issued date by the Tree Officer, Urban Court	: 09.12.2021
Permission Date	: 09.02.2022

Details of the OM dtd. 09.12.2021:

Total number of trees removed as per OM	: 229 No. Trees
Total Number of Trees Recommended for the Retention on site	: 27 No. Trees
Total Number of Trees Recommended for the Translocation on site	: 84 No. Trees
Number of Trees Recommended for the Felling on site	: 145 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: Blue Grass Landscapers Under AFCONS Pvt Ltd and SNC Pvt. Ltd
Location of Receptor site	: 1. Bhogan halli lake = 27/28 2. CMP Centre training, Iblur = 56/56
Total number of trees to be translocated as per OM dtd.	: 84 No. Trees
Translocation completed Month and Year	: July 2022
Total number of tree translocation completed	: 83 No. Trees
Total number of tree translocation balance	: 1 No. Trees
Total number of trees observed with survival Symptoms	: 32 No. Trees
Total number of trees not encounter with any type of survival symptoms	: 51 No. Trees

Procedure of agency selection	: Competitive bidding as per the KTTTP ACT 1999
Methodology adopted for the tree translocation:	Root Ball Method as per the UAS, GKVK, guidelines 2020
Supervision of translocation	:Environmental officer (SEMU), Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU, Asst. Engineer (Civil) 2A Package 1, BMRCL and Asst. Engineer (Civil), AFCONS PVT. LTD.
Officers in-charge for tree translocation	: ED-Civil, GM (SEMU), Chief Engineer (2A Package 1-ORR), Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU), AE (Civil) 2A Package 1 and Asst. Engineer (Civil), AFCONS.
Supervision by BBMP	: BBMP Tree Officer or Officer Deputed by Tree Officer BBMP

Details of compensatory Plantation:

BMRCL has issued notification inviting tenders for raising and maintenance of saplings for 3 years on 24.02.2023. Notice to proceed issued to competent agency on 30.05.2023. Plantation work along with Geo-tagging is in progress.

A. TREE TRANSLOCATION**A1. Competent Agency Selected for Translocation:**

Bangalore Metro Rail Corporation Limited Engaged Blue Grass Landscapers Under AFCONS Pvt Ltd and SNC Pvt. Ltd for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with Blue Grass Landscapers Under AFCONS Pvt Ltd and SNC Pvt. Ltd.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering

and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand the tests of at least one years (covering all the three seasons) to declare it as ‘surviving or successful’. Hence, any premature conclusions and certifications are being restrained.

From April 2022 BMRCL has translocated 83 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 32 translocated trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate. Remaining 51 no translocated trees have not encountered with any survival symptoms hence they were kept in the observation.

A3. Maintenance of Transplanted trees:

A3.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A3.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in April 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from April 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

Work done in the previous quarter and present quarter:

Work done in the previous quarter	Present Quarter
1. Maintenance of 34 transplanted trees is started and 24 trees transplanted.	1. Maintenance of 72 transplanted trees is in progress. 2. Compensatory afforestation NTP has been issued on 30.05.2023 and plantation raising work is in progress.

Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	84	72	12	Transplantation of 12 trees is in progress
2.	Compensatory plantation	2290	0	2290	Tendering is in progress

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.

K R Puram to Kempapura-2B, Pkg-1 Translocated Trees

K R Puram to Kempapura-2B, Pkg-1 Translocated Trees

**Quarterly report on implementation of Official Memorandum dated 26.07.2022
(Kempapura to Baglur cross Package 2 & 3) by Bengaluru Metro Rail Corporation
Limited**

Name of the project	: 2B Package 2 of Bangalore Metro Rail Project Construction
Location of the project	: Kempapura to Baglur cross
OM issued date by the Tree Officer, BBMP	: 26.07.2022
Court Permission Date	: 13.09.2022

Details of the OM dtd. 26.07.2022:

Total number of trees removed as per OM	: 411 No. Trees
Total Number of Trees Recommended for the Retention on site	: 15 No. Trees
Total Number of Trees Recommended for the Translocation on site	: 29 No. Trees
Number of Trees Recommended for the Felling on site	: 382 No. Trees

Details of Translocation:

Agency entrusted for the tree translocation	: NCC Pvt Ltd
Location of Receptor site	: Hi-Tec Defance and Aero space park Phase-1 (KIADB), Huvinayakanahalli, Bengaluru = 21/160
Total number of trees to be translocated as per OM dtd.	: 29 No. Trees
Translocation completed Month and Year	: Feb 2023
Total number of tree translocation completed	: 21 No. Trees
Total number of tree translocation balance	: 08 No. Trees
Total number of trees observed with survival Symptoms	: 21 No. Trees
Total number of trees not encounter with any type of survival symptoms	: Nil

Procedure of agency selection	: Competitive bidding as per the KTCP ACT 1999
Methodology adopted for the tree translocation:	Root Ball Method as per the UAS, GKVK, guidelines 2020
Supervision of translocation by BMRCL	:Environmental officer (SEMU), Asst. Environmental Engineer, SEMU, Section Environmental Engineer SEMU, Asst. Engineer (Civil).
Officers in-charge for tree translocation By BMRCL	: ED-Civil, GM (SEMU), Chief Engineer Environmental officer, AM/AE (SEMU), Asst. Environmental Engineer (SEMU) Section Environmental Engineer (SEMU).
Supervision by Forest Dept.	: BBMP Tree Officer or Officer Deputed by Tree Officer BBMP

Details of compensatory Plantation:

BMRCCL has issued notification inviting tenders for raising and maintenance of saplings for 3 years on 24.02.2023. Notice to proceed issued to competent agency on 30.05.2023. Plantation work along with Geo-tagging is in progress.

A. TREE TRANSLOCATION**A1. Competent Agency Selected for Translocation:**

Bangalore Metro Rail Corporation Limited Engaged NCC Pvt. Ltd. for tree Translocation and maintenance for a period of 3 years. BMRCL has entered an agreement with NCC Pvt. Ltd. between agency and BMRCL.

A2. Survival Rate of transplanted trees as per the official memorandum:

The transplanted tree needs to be observed frequently for its survival, growth, pests, diseases and other physiological symptoms/expressions. It is possible to witness temporary wilting of leaves for few days, leaf fall also can happen and the tree may even decide to go in for 'Transitory Dormancy' phase, to avoid moisture loss and desiccation. But can show revival symptoms within six months like, new sprouts, turgid leaves, arrest of leaf fall, etc., It is also possible that sometimes, there will be a 'Distress' reaction in the form of premature flowering and fruiting. Also, some trees will exhibit new sprouts within few weeks which may be due to the presence of adequate stored food reserves. Under such circumstances, the new sprouts will not survive for a long and may wither soon. If the tree has not acclimatized, then there will not be any revival symptoms. It should be kept in mind that the transplanted tree has to withstand

the tests of at least one years (covering all the three seasons) to declare it as 'surviving or successful'. Hence, any premature conclusions and certifications are being restrained.

From December 2022 BMRCL has translocated 21 trees which are given way for the metro construction. Morphological characteristics showing the survival symptoms likes leaf buds, leaf initiation, new shoots, tree branchlets, flowers and new leaves were observed in the 21 translocated trees are responding to the translocation shock and trying to adopt for the new location and surrounding microclimate.

A4. Maintenance of Transplanted trees:

A4.1 Time period: The plantation has maintained for a period of three years form the date of completion of transplantation.

A4.2 Plantation activities under taken in the present quarter:

Weeding: Removal of the weeds has been carried out from April to June 2023 at receptor sites.

Soil works: Hoeing and other soil works has been started in April 2023, still work is in progress.

Saucer Bharav: Preparation of Saucer Bharav for the saplings has been started from April 2023, still is in progress.

Watering: Frequent watering has carried out in quarter April to June 2023 in the plantations.

C. Conclusion

Sl. No.	Conditions as per OM	Recommendation as per the OM	Completed till June 2023	Balance	Remarks
1.	Tree translocation	29	21	08	Transplantation of 08 trees is in progress
2.	Compensatory plantation	4110	0	4110	Plantation work is in progress.

It is submitted that as per the directions of the Hon'ble High Court of Karnataka vide Daily order and Official Memorandum (OM) issued by the tree officer/DCF (BBMP and Urban Division), Bengaluru. The Quarterly Progress report of Compensatory afforestation and translocation for the Quarter April, May & June 2023 is here by submitted. It is requested that

Quarterly Report April to June 2023

3rd Quarter

Tree Officer, Deputy Conservator of Forest, BBMP Bangalore to kindly consider the same for further needful action by keeping the view the directions of the Hon'ble High Court of Karnataka in WP No 17841.
