Dr. Vaman Acharya,
Chairman.

Do. KSPCB/CM/MSW/BBMP/2012

Dated:28-9-2012

Dear Mr. Rajneesh Goel,

We are in receipt of your letter Date d: 28th Sept 2012.

You are planning to give segregated organic waste to the farmers around Bangalore for Composting on site in their fields.

We understand that, BBMP is going through a crisis of handling segregated organic wet waste. In this situation, giving away segregated organic waste for interested farmers in small quantity to do composting in their own lands on the following conditions will be acceptable.

1. A farmer can be given 20 tonnes of wet waste/acre/year.
2. BBMP shall take up shredding of large size organic waste like tree branches etc.
3. BBMP shall make a list of interested farmers with necessary addresses and quantity given to them on date wise .

4. Spray of Cowdung slurry or a bio-culture combined with EM solutions to the waste heap to speed up the process of composting and to reduce odour has to be ensured by BBMP.
5. Bulk food waste from Hotel/Choultry has to be handled separately.

Yours Sincerely

A. V. S. Chetty
